

POLYTRON™

ULTRA PERFORMANCE

"Today's most advanced lubricants"

Automotive & motorcycle equipments, including engines, transmission, various gears, and joints, are subject to harsh conditions regardless of your driving style. High temperature, high stress, and high surface contact area all adds to excessive wear that you experience with your engine and parts that leads to premature failure. POLYTRON can help eliminate such unwanted wear and leaves you with healthy equipment you can rely on with dramatically increased longevity and protection. Furthermore, EPA-approved *POLYTRON Fuel Conditioner* allows more efficient and cleaner combustion from your engine to increase your MPG.

SIZES:
16 oz Bottle
1 Gal Jug
4 Gal Pail
55 Gal Drum

POLYTRON METAL TREATMENT CONCENTRATE (MTC)

POLYTRON Metal Treatment Concentrate (MTC) is the best in the industry. Attracted to metal surfaces, MTC transforms the original metal to a highly durable polished-like micro-layer of metal that drastically resist wear, extreme pressure, temperature, and contaminants. Only by adding 10% by volume to your current main lubricant, you will gain great benefits and protection, that saves you \$1000's.

APPLICATION:

- ✓ Passenger Cars, Trucks, Railroad, Boats
- ✓ Automatic & Manual Transmission
- ✓ Differentials, Gears, Steering Pump
- ✓ Heavy Equipments & Tools

EXPECTED RESULTS:

- ✓ Maximizes fuel mileage (MPG), power & compression of an engine
- ✓ Eliminates wear of engine/equipment up to 95%, lowers operating temperature, and noise
- ✓ Keeps the moving parts clean and extends maintenance intervals up to 4 - 7 times*
- ✓ Protects engine/equipment across wider range of temperatures
- ✓ Provides temporary protection to engine/equipment in the event of lubricant loss
- ✓ Contributes to reduction maintenance costs up to 60%

SIZES:
12 oz Bottle
1 Gal Jug
4 Gal Pail
55 Gal Drum

POLYTRON GASOLINE/DIESEL FUEL CONDITIONER (GDFC)

Polytron GDFC is today's most technologically advanced fuel conditioner, scientifically designed for much cleaner and more efficient fuel combustion. It also cleans and lubricates the working parts of the fuel system and the upper part of the engine. Polytron GDFC dissolves and removes carbon deposits and prevents future harmful carbon build-up. Add 2 oz per 15 Gal of fuel or 1 Gal to 1000 Gal of fuel.

APPLICATION:

- ✓ Gasoline AND Diesel Engines
- ✓ 2-Cycle Engines & Fuel Oils
- ✓ Passenger cars, Trucks, Railroad, Boats
- ✓ Pumps, Air Compressors, Air Condition

EXPECTED RESULTS:

- ✓ Maximizes compression, power/torque & MPG
- ✓ Cleaner emissions, up to 60% reduction of pollutants: 95% chance to pass smog re-test**
- ✓ Lubricates moving parts and provides quicker starts in cold weather
- ✓ Cleans entire fuel system including injectors, intake valves, and combustion chamber
- ✓ Removes water in fuel tank and lines and neutralizes poor quality fuel

SIZES:
14 oz Tube
35 lb Pail
420 lb Drum

POLYTRON EP-2 LITHIUM COMPLEX GREASE (EP2)

POLYTRON EP-2 Lithium Complex Grease is a superior quality, multi purpose, wide temperature-range lubricant. It is made with lithium complex soap, quality base oils and POLYTRON's scientifically engineered anti-wear friction reducing formula with other additives to contribute to its outstanding qualities of water resistance and anti rust/corrosion protection. It may also be used in electric motors of NEMA insulation class A and B types. *POLYTRON EP-2 Grease* does not soften excessively during high speed operation in rolling contact bearings. Excellent for automotive and industrial equipments.

APPLICATION:

- ✓ Passenger Cars, Trucks, Railroad, Boats
- ✓ Suspension Joints & Bushings
- ✓ U-Joints, Rack, & Pinion Gears

EXPECTED RESULTS:

- ✓ Eliminates wear by up to 95% and reduce maintenance cost up to 60%
- ✓ Protects equipments during temporary loss of grease
- ✓ Excellent in severe pressure, condition, and temperature
- ✓ Repels water and protection against from corrosion

SIZES: 1 qt Bottle
1 Gal Jug / 55 Gal Drum

POLYTRON FULL- AND SEMI-SYNTHETIC MOTOR OIL

In addition to the standard additive package that is used in typical synthetic motor oils, *POLYTRON Synthetic Motor Oils* contain *POLYTRON MTC*, a complementary additive package, which is a break-through in micro-lubrication technology that converts metallic surfaces into wear-resisting, "smooth" surfaces resulting in lower friction and much longer wear-life. All API approved grades and types available.

APPLICATION:

Passenger Cars, Trucks, Railroad, Boats

EXPECTED RESULTS:

Please see results for POLYTRON MTC

* Results may vary. We strongly suggest you performing oil change per manufacturer's recommendation!
** Results may vary. Passing rate is actual collected data of Polytron users.
